Nearest Fire Alarm: _____

Spill Control Materials: _____

Two Nearest Exits: _____

- If there is a chemical spill or fire, notify your supervisor or Emergency coordinator immediately.
- Do not use a fire extinguisher or attempt to clean up a spill unless you are trained to do so.
- If instructed, evacuate the building. Know at least two ways out. Remember to make use of an office roster and meet at a designated meeting point after evacuation.
- If you get chemicals in your eyes, flush for at least 15 minutes. Seek medical attention.
